

TO WHOM IT MAY CONCERN

This is to certify that the following vessel:

JON KJARTANSSON
IMO/LR NO. 5247316
P.O.R.: ESKIFJORDUR
FLAG: ICELANDIC

APPROPRIATE DOB 1998-99.

Classed by this Society was completely rebuilt 1998 - 99 by means of renewing in entirety the hull from frame no. 42 and forward - the shell plating in way of the engine room remains unchanged but was found sound and in good condition during the alteration. The superstructure was also renewed in entirety together with renewal of the propulsion unit in entirety (Main Engine, propeller, screwshaft, reduction gear box etc) at the same time as the hull renovation took place including renewal of all machinery items (auxiliary engines, pumps, coolers, RSW system etc.). Despite the major alteration of this vessel the LR no. remains the same but correct and appropriate date of built should have been assigned 1998-99 together with appropriate IMO no.

Upon request full scope to above mentioned major alteration can be provided.
